

Save Money While Achieving a MORE Sustainable Surgical Waste Disposal System

VCI's Absolute Solidifier™ is used to solidify liquid medical waste so that it can be disposed of in a safe and environmentally friendly way. Available in a wide range of volumes and multiple delivery systems, Solidifier eliminates the need for costly conventional disposal and removes single use plastic bottles from the disposal process, keeping them out of landfills.

With Vital Care Industries, you can reduce your carbon footprint and go from green to GREENER!

Two Branded Products:

ABSOLUTE SOLIDIFIER™

Solidifies waste that must be disposed as a biohazard (red bag waste)

ABSOLUTE SOLIDIFIER RX™

Contains a treatment* that allows for non-hazardous disposal directly to the landfill (white bag waste)

**Capable of >99.9999% kill rates on many common microbial and viral infections found within blood and other bodily fluids collected in operating room suction canisters.*

About VCI

Vital Care Industries (VCI) has served hospitals, surgery centers, physician offices, and other facilities nationwide for four decades as a leading manufacturer of medical and surgical supplies. With an unparalleled commitment to quality, VCI products help to ensure the safety of patients and medical professionals by maintaining a sterile environment during treatments and procedures.
